When I'm not. I went to the FBI and LAPD and instead of help, I got abused and blown off meaning they both reinforced all the trauma and pain of the hate crimes of 2009-2013 and left me sitting in it to die. My statue of limitations has run out to sue all the 10 cases for these Hate Crimes, there is corruption within the FBI, now I have to learn appealate court so I can get my monetary damages and put these people in prison where they belong and won't be able to harm nor hurt any other victims ever again.

Kathleen Marie Gold

Canoga Park, CA 91305

Dear Kathleen Marie Gold:

Thank you for your request for a hearing before an administrative law judge (ALJ). This letter explains the hearing process and things that you should do now to get ready for your hearing. We will send you a notice after we schedule your hearing. We will notify you at least 20 days before the date of your hearing. The notice will provide you with the time and place of your hearing. We generally process requests for hearing by date order, with the oldest receiving priority. We will schedule your hearing as soon as we can, which may take several months.

Use of Video Teleconferencing (VTC) At Your Hearing

In certain situations, we hold your hearing by VTC rather than in person. We will let you know ahead of time if we schedule your hearing by VTC.

If we schedule your appearance by VTC, you and the ALJ will be at different locations during the hearing. A large, color monitor will enable you and the ALJ to see, hear, and speak to each other. The ALJ will also be able to see, hear, and speak to anyone who comes with you to the hearing. This may include your representative (if you have one), a friend, or a family member. We will provide someone at your location to run the equipment and provide any other help you may need.

You must let us know within 30 days after the date you receive this notice if you do not want to appear at your hearing by VTC. (We may extend the 30-day period if you show you had good cause for missing the deadline.) **Please let us know by completing and returning the attached form in the envelope we sent you.** We will arrange for you to appear in person.

If you move before we hold your hearing, we retain the right to decide how you will appear at your hearing, even if you objected to appearing by VTC. For us to consider your change of residence when we schedule your hearing, you must submit evidence proving your new residence.

The Hearing

Suspect Social Security Fraud? Please visit <http://oig.ssa.gov/r> or call the Inspector General's Fraud Hotline at 1-800-269-0271 (TTY 1-866-501-2101).

Form HA-L2 (04-2015)

Claimant

See Next Page

At your hearing, you may present your case to the ALJ who will make the decision on your claim(s). The ALJ will consider the issue(s) you raise, the evidence now in your file, and any additional evidence you provide. The ALJ may also consider other issues, including issues that were decided in your favor in the decision you appealed. The Notice of Hearing will list the issues the ALJ plans to consider at the hearing.

Your hearing is the time to explain why you believe the ALJ should decide the issues in your favor.

Your Right To Representation

You may choose to have a representative help you. We will work with this person just as we would work with you. If you decide to have a representative, you should find one quickly so that person can start preparing your case.

Many representatives charge a fee only if you receive benefits. Others may represent you for free. Usually, your representative may not charge a fee unless we approve it. We are enclosing a list of groups that can help you find a representative.

If you get a representative, you or that person must notify us in writing. You may use our Form SSA 1696-U4 Appointment of Representative. Any local Social Security office can give you this form.

Submitting Evidence

We need to make sure that your file has everything that the ALJ will need to decide your case. After the ALJ reviews the evidence in your file, he or she may request more evidence to consider at your hearing.

You are required to inform us about or submit all evidence known to you that relates to whether or not you are blind or disabled. Giving us evidence early can often help us review your case sooner. If there is evidence you cannot give to us before the hearing, you may bring it to the hearing.

We can help you get evidence. If you need help, contact our office, your local Social Security office, or your representative (if you appoint one) immediately.

If a physician, expert, or other person is not providing documents important to your case, you may ask the ALJ to issue a subpoena. A subpoena is a special document that requires a person to submit documents or to testify at your hearing. The ALJ will issue a subpoena only if he or she thinks the evidence is necessary to decide your case, and the evidence cannot be obtained another way. You must ask the ALJ to issue a subpoena at least 5 days before your hearing date. Send your request in writing to the address at the top of the first page of this letter.

You May See The Evidence in Your File

If you wish to see the evidence in your file, you can see it on or before the date of your hearing. If you wish to see your file before the date of your hearing, please call us as soon as you reasonably can at the number at the top of the first page of this letter.

If You Have Any Questions or Your Address Changes

If you have any questions, please call or write us. You must tell us if you change your address. For your convenience, we gave you our telephone number and address on the first page of this letter.

Sincerely yours,

Vester Levingston
Hearing Office Director

However, failing to provide us with all or part of the information may prevent an accurate and timely decision on any claim filed.

We rarely use the information you supply us for any purpose other than to make a determination regarding benefits eligibility. However, we may use the information for the administration of our programs including sharing information:

1. To comply with Federal laws requiring the release of information from our records (e.g., to the Government Accountability Office and Department of Veterans Affairs); and,

Your Right To Representation

You can have a representative, such as an attorney, help you when you do business with Social Security. We will work with your representative, just as we would with you.

For your protection, your representative cannot charge or collect a fee from you without first getting written approval from us. However, your representative may accept money from you in advance as long as it is held in a trust or escrow account.

Both you and your representative are responsible for providing us with accurate information. It is illegal to furnish false information knowingly and willfully. If you do, you may face criminal prosecution.

What a representative can do

Once you appoint a representative, he or she can act on your behalf in most Social Security matters by:

- Getting information from your Social Security file;
- Helping you get medical records or information to support your claim;
- Coming with you, or for you, to any interview, conference or hearing you have with us;
- Requesting a reconsideration, hearing or Appeals Council review; and
- Helping you and your witnesses prepare for a hearing and questioning any witnesses.

Your representative also will receive a copy of the decision(s) we make on your claim(s).

Choosing a representative

You can choose an attorney or other qualified person to represent you. You also can have more than one representative. However, you cannot have someone who has been suspended or disqualified from representing others before the Social Security Administration or who may not, by law, act as a representative.

Some organizations can help you find an attorney or give you free legal services if you qualify. Some representatives do not charge

unless you receive benefits. Your Social Security Office has a list of organizations that can help you find a representative.

You can appoint one or more people in a firm, corporation or other organization as your representative, but you **may not** appoint the firm, corporation or organization itself.

After you choose a representative, you must tell us **in writing** as soon as possible. To do this, get Form SSA-1696-U4, *Appointment of Representative*, from our website at www.socialsecurity.gov or from any Social Security office.

You must give the name of the person you are appointing and sign your name. If the person is **not** an attorney, he or she must give his or her name, in writing, state that he or she accepts the appointment, and sign the form.

What your representative may charge you

To charge you a fee for services, your representative first must file either a fee agreement or a fee petition with us.

Your representative **cannot** charge you more than the fee amount we approve. If you or your representative disagree with the fee we approve, either of you can ask us to look at it again.

A representative who charges or collects a fee without our approval, or charges or collects too much, may be suspended or disqualified from representing anyone before the Social Security Administration and also may face criminal prosecution.

Filing a fee agreement

If you and your representative have a written fee agreement, your representative may ask us to approve it any time before we decide your claim. Usually, we will approve the agreement and tell you in writing how much your representative may charge as long as:

- You both signed the agreement;
- Your claim was approved and resulted in past-due benefits; and

(over)

Your Right To Representation

www.socialsecurity.gov

- The fee you agreed on is no more than 25 percent of past-due benefits or \$6,000, whichever is less.

If we do not approve the fee agreement, we will notify you and your representative in writing that your representative must file a fee petition.

Filing a fee petition

Your representative may give us a fee petition after completing the work on your claim(s). This written request should describe in detail the amount of time spent on each service your representative provided. Your representative must give you a copy of the fee petition and each attachment. If you disagree with the fee requested or the information shown, contact us within 20 days. We will consider the reasonable value of the representative's services and tell you, in writing, the amount of the fee we approve.

How much you pay

The amount of the fee we decide your representative may charge is the most you owe for his or her services even if you agreed to pay your representative more. However, your representative can charge you for out-of-pocket expenses, such as medical reports, without our approval.

If an attorney or non-attorney whom Social Security has found eligible for direct payment represents you, we usually withhold 25 percent (but never more) of your past-due benefits to pay toward the fee. We pay all or part of the representatives from this money and send you any money left over.

Sometimes you must pay your representative directly:

- You must pay the rest you owe if the amount of the approved fee is more than the amount of money we withheld and paid your representative for you.
- You must pay the entire fee amount if:
 - Your representative is not eligible for direct payment;
 - We did not withhold 25 percent from your past-due Social Security or Supplemental Security Income benefits, or both; or

- Your representative did make a timely request for a fee and we sent you the money which we should have withheld.

You must pay for out-of-pocket expenses your representative incurs or expect(s) to incur (for example, the cost of getting your doctor's or hospital records).

If someone else pays your representative

Even when someone else will pay the fee for you (for example, an insurance company), we must approve the fee unless:

- It is a nonprofit organization or federal, state, county or city agency that will pay the fee and any expenses from government funds; and
- Your representative gives us a written statement that you will not have to pay any fee or expenses.

If you appeal your claim to the federal court

The court can allow a reasonable fee for your attorney. The fee usually will not exceed 25 percent of all past-due benefits that result from the court's decision. Your attorney cannot charge any additional fee for services before the court.

SOCIAL SECURITY HEARING PROCESS WHAT HAPPENS NEXT?

- * Your hearing request and your file are now at the Office of Disability Adjudication and Review (ODAR).
- * We may look at your case to see if we can make a decision in your favor without a hearing. If we do not make a decision this way, we will prepare your case for an administrative law judge (ALJ). We prepare cases in the order we get them.
- * An ALJ will review your file after we prepare it. We will then schedule a hearing for your case. You will get a notice informing you when and where we will hold your hearing. We will send you the notice at least 20 days before the date of your hearing. If you have a representative, we will also send the notice to that person.
- * You will come to your hearing and talk to the ALJ. Other people, such as witnesses or your representative, can also come to your hearing. If the ALJ wants any more evidence, or if you ask for more time to give us more evidence, the ALJ will tell you how long we will wait for that evidence.
- * The ALJ will make a decision after your hearing if he or she has all of the evidence. Otherwise, the ALJ will make a decision when he or she gets the evidence needed to make a decision.
- * You can expect to wait another 3 months after the hearing until you receive your written decision in the mail.
- * We cannot talk to you about the outcome of your case before we mail you the written decision.
- * Remember: In order to make your case go as quickly as possible, please be sure to send us all of your medical and other evidence as soon as possible. Your representative, if you have one, may also send evidence to us. Having the evidence sooner could help the ALJ decide your case sooner.

Why You Should Have Your Hearing By Video Teleconference

If you are participating in a hearing before an administrative law judge, Social Security can make the process more convenient for you, through video teleconferencing (VTC) technology.

What is VTC?

VTC allows you and other hearing participants to see and hear each other clearly on color monitors. The judge remains in his or her office, and you go to a site that may be more convenient to where you live. A technician is there to make sure the teleconferencing equipment is connected and working properly.

How is a hearing by VTC different?

Except for the equipment, a hearing by VTC is no different from a hearing at which you appear in person. The judge can see and speak with you and anyone who comes to the hearing with you, such as your representative or witnesses. You can see the judge and anyone who is with the judge, or anyone at another video hearing site, such as a medical or vocational expert. Transmission of the hearing is secure, and your privacy is protected. We do not videotape hearings, but we do make audio recordings, as we do for all hearings.

What are the advantages of a hearing by VTC?

Often an appearance by VTC can be scheduled faster than an in-person appearance. That means less waiting time. In addition, a VTC location may be closer to your home. That might make it easier for you to have witnesses or other people accompany you.

How is a hearing by VTC scheduled?

Prior to scheduling your hearing, we will notify you that we may schedule you to appear by VTC, and provide you the opportunity to object to appearing by video. If you have questions after you receive acknowledgment of your request for a hearing, please contact your hearing office.

**Explanation of Form SSA-827,
"Authorization to Disclose Information to the Social Security Administration (SSA)"**

We need your written authorization to help get the information required to process your claim, and to determine your capability of managing benefits. Laws and regulations require that sources of personal information have a signed authorization before releasing it to us. Also, laws require specific authorization for the release of information about certain conditions and from educational sources.

You can provide this authorization by signing a form SSA-827. Federal law permits sources with information about you to release that information if you sign a single authorization to release all your information from all your possible sources. We will make copies of it for each source. A covered entity (that is, a source of medical information about you) may not condition treatment, payment, enrollment, or eligibility for benefits on whether you sign this authorization form. A few States, and some individual sources of information, require that the authorization specifically name the source that you authorize to release personal information. In those cases, we may ask you to sign one authorization for each source and we may contact you again if we need you to sign more authorizations.

You have the right to revoke this authorization at any time, except to the extent a source of information has already relied on it to take an action. To revoke, send a written statement to any Social Security Office. If you do, also send a copy directly to any of your sources that you no longer wish to disclose information about you; SSA can tell you if we identified any sources you didn't tell us about. SSA may use information disclosed prior to revocation to decide your claim.

It is SSA's policy to provide service to people with limited English proficiency in their native language or preferred mode of communication consistent with Executive Order 13166 (August 11, 2000) and the Individuals with Disabilities Education Act. SSA makes every reasonable effort to ensure that the information in the SSA-827 is provided to you in your native or preferred language.

**Privacy Act Statement
Collection and Use of Personal Information**

Sections 205(a), 233(d)(5)(A), 1614(a)(3)(H)(i), 1631(d)(l) and 1631(e)(l)(A) of the Social Security Act as amended, [42 U.S.C. 405(a), 433(d)(5)(A), 1382c(a)(3)(H)(i), 1383(d)(l) and 1383(e)(l)(A)] authorize us to collect this information. We will use the information you provide to help us determine your eligibility, or continuing eligibility for benefits, and your ability to manage any benefits received. The information you provide is voluntary. However, failure to provide the requested information may prevent us from making an accurate and timely decision on your claim, and could result in denial or loss of benefits.

We rarely use the information you provide on this form for any purpose other than for the reasons explained above. However, we may use it for the administration and integrity of Social Security programs. We may also disclose information to another person or to another agency in accordance with approved routine uses, including but not limited to the following:

1. To enable a third party or an agency to assist us in establishing rights to Social Security benefits and/or coverage;
2. To comply with Federal laws requiring the release of information from our records (e.g., to the Government Accountability Office, General Services Administration, National Archives Records Administration, and the Department of Veterans Affairs);
3. To make determinations for eligibility in similar health and income maintenance programs at the Federal, State, and local level; and
4. To facilitate statistical research, audit, or investigative activities necessary to assure the integrity and improvement of our programs (e.g., to the U.S. Census Bureau and to private entities under contract with us).

We may also use the information you provide in computer matching programs. Matching programs compare our records with records kept by other Federal, State, or local government agencies. We use the information from these programs to establish or verify a person's eligibility for Federally funded or administered benefit programs and for repayment of incorrect payments or delinquent debts under these programs.

This is my story and what happend to me.

In February of 1998, I became engaged to [Jon Mackinder](#), it was on February 14, 1998 to be exact. He was a scientologist, like me. I've been in Scientology since 1986. In 1985, I had a realization, I was asking myself what did I want to do with my life and then a lightbulb went off and I had a realization, past lives, somewhere on this planet I could find the true data about past lives. The next day, I got a job working for scientologists, in Woodland Hills, California, they all happen to be OT's lol.

The first book I read was [Have You Lived Before This Life](#). The Church of Scientology is a church about past lives, I didn't care about improving my life etc etc. I realized to go up the bridge was my way of obtaining spiritual freedom, meaning cause over my exteriorization. That would mean, when I die, my soul leaves my body, I'm aware and I know where I'm going and where I want to go. Basically to have the ability to go play any game in the universe I want. This was important to me. I understand that to alot of people, they don't really care about what happens to them when they die. I'm not them. I do. I knew this back in 1986.

Anyway my bridge, my religion, my faith Scientology was very very important to me. After my first husband who was an asshole and a jerk, I decided I wanted to marry and have kids with a Scientologist, someone like me, where going up the bridge and obtaining our spiritual freedom together was important.

I had my own business called [Digital Gold](#), I put myself though a computer trade school back in 1995 and after I graduated, I started my own company. I had no money only \$150.00, enough to get my DBA and open my business checking account. That was it, I worked my butt off to get my company off the ground. I met a scientologist by the name of Linda Hubbard and she introduced me to [Jon Mackinder](#), this was in the beginning of 1998.

After we got engaged, he moved into my home in Encino, near Burbank Blvd in between White Oak and Balboa. I worked out of my home, I had a 2 bedroom apartment and he also started working for my company, he too was in the internet web design field. I designed, developed and built websites and online marketing and promotion.

Things were up and down with us and I assumed that we could work through our problems as we were going to be married etc. One day we had a fight and he was tape recording me, turning on and off the tape recorder, basically self editing and that really pissed me off. I tried to take it away from him, and it got worse from there. At one point he pushed me down and told me to stay down. I didn't listen, I got back up. He's 6'3 and I'm 5'2. He's the guy, he's not suppose to be acting like this, especially in my home. The fight escalated from there, where he picked me up and threw me across my glass dining room table. Then, I was holding on to my art deco lamp and he picked that up and threw me out of my home with it, I landed on the cement pavement. In the middle of all of this, he called his registrar at Ventura Mission, Jim Hamre and told him I was hitting him which was not true, he's response was go for a walk.

Weeks prior to this, [Jon Mackinder](#) was suicidal, so I cancelled my meeting with Sony execs over on the Sony Lot and drove him down to Ventura Mission so he could get some auditing, I didn't want him to die, so I took responsibility for him and paid for it. We were engaged to be married and this is what you do when you love someone.

That evening, we both went into CC Int, we were both on lines there doing the PTS/SP course, which I paid for along with our IAS memberships. We went to Ethics and I took full responsibility for my part in this fight, but [Jon Mackinder](#) didn't. I didn't want to get the police involved as it would be an out gradient, when you are part of a church, you're suppose to go to your church first, to handle it. The police have more important things to do like saving people's lives, not handling domestic quarrels. Between all this, me and [Jon Mackinder](#) were breaking up and getting back together.

At this point we got into another argument and he moved out. I also got a call from Lance Imbergia, he had an affair with [Lisa Mcpherson](#), whose name was Lisa Skinitzky when they were in the Sea Org at CC Int. She left and came to interview at Hanover in 1989 for a job. I hired her as one of my juniors. Lance told me that she died at Flag from a brain aneurysm.

Then while working, I had another realization, the sea org was my true group. I always had intended on going back, I was in the Sea Org in 1991, I routed on to the EPF on February 14, 1991, I was only in for 3 month and trying to get out for another 3 months. I went to work at Bridge Publications. Gavin Potter was my orginal recruiter. So as soon as I had that realization, I picked up the phone and called Gavin, I told him I wanted to come back in the Sea Org and he was like this is wild, I'm on a special project recruiting to get OT9 and OT10 released. I'm never at this phone, what are the odds? I was like ok, whatever, come over, let's get this done. So he came by, by this time, me and [Jon Mackinder](#) were back together and we talked about going in the Sea Org. Gavin Potter was divorced but had kids and so did [Jon Mackinder](#), so Gavin told [Jon Mackinder](#) how he did it. Basically Gavin took a leave of absense from the Sea Org and went to work and made a bunch of money, then opened trust accounts for his kids and had it paid till they were 18 years old to handle his child support issues.

The special project to get OT9 and OT10 released consisted of getting trained in martial arts and going and kidnapping the SP's and auditing them. I was like that's my game. Let's go. This was pre 9/11 and I assumed it was mankind's SP's and of course we were working with the US Gov. I found out later reading [Marty Rathbun's](#) blog that the SP's Gavin was referring to was David Mayo, so basically they wanted to kidnap and audit people like David Mayo, kidnapping is against the law. Had I made it up to Int management and found out, I would have told them they were crazy, it's against the law and I would have left, and probably reported them to the police as well as documents to prove. David Mayo is not mankind's SP's, these people like David Mayo had missions and were part of expanding the missions.

[Gavin](#) also told me, int management did a survey and found that the SP's are stopping people from going into the Sea Org, so I'll be monitored. I was like ok, cool.

Mind you, this happened within a 2 week period, really fast. Two apartment buildings down, there was a huge arrest of like 20 guys on the front lawn. And I had a really bad dream and thought someone was breaking into my home, I was living alone at that time. I freaked out, I called [Jon](#) and he didn't believe me, he started laughing, then I hung up on him and called 911 they told me to wait, I was like what, somebody could be trying to kill me and I gotta wait, I freaked and ran out of my home. I jumped in my car and drove and drove all over the place, all the way out to long beach, I just kept driving, mind you I'm in my night gown ok. So morning is coming up and I don't know where to go, I didn't feel safe, the only place I felt safe was my church. I knew, no harm could come to me in my church. For me, a church is a place of sanctuary, not a house of worship.

So I went to CC Int, went to the cantina and security came. They got me blankets and they were laughing too, when I told them my story. Then they directed me downstairs, by the purif where Gavin was waiting for me. We both sat there, he gave me some b1's which I took and then my course supervisor along with others crowded around us and she started pointing her finger at me like I was bad. Then Gavin drove me home to my house, where [Jon Mackinder](#) was waiting for me. I didn't really understand why he was there and my door was unlocked. I didn't want him there. I told him to leave but he wouldn't leave. Which really pissed me off. So we were there, alone before others showed up. I guess they sent me home to be watched. I didn't argue with them, I just let them direct me. I put my trust in them. I trusted them to apply my religion Scientology. There are missing time periods as I was going in and out of a state of consciousness.

At one point, I left, i just started walking, really really fast, past balboa park, going towards woodley and [Jon](#) was there following me, after me. There were helicopters above us and the next thing I knew, [Julie Synder's Husband's assistant](#) pulled up in a car and we both got in. She drove and me and him were in the back seat. They wouldn't talk to me, she just kept telling me to calm down and he just really pissed me off, I started getting violent, I started beating the hell out of him. I remember, I grabbed his hair and just started pulling it back and forth and ramming his head agaisnt the back seat of the car, he just sat there and took it. I guess because she was a witness where before our fight in my home, there were no witnesses other than my neighbors across the street. They called Pomm Hepner and asked her, what should we do, she's being violent and we can't control her.

But they wouldn't listen to me. They wouldn't talk to me or acknowledge my communcation. Which made me angrier and angrier. I remember later that night, [Jon Mackinder](#) and her, I forget her name, she worked for a friend of mine's husband [Julie Synder](#), a gallery aritst. They both wouldn't allow me to leave my home nor talk to me nor allow me to talk on the phone. They cut my comm. [Jon Mackinder](#) was on the phone in the kitchen on a cell phone and I overheard him saying she's a psych case. I didn't know what that meant as I have never been in a psych hospital.

They forced me to sit down, I would stand up and they would both force me back into the chair. At one point, my ears went deaf, I couldn't hear anything, and I was so pissed off, I took the phone in my living room, pulled it out of the wall and threw it against the window. I wanted to hear the sound of glass crashing.

Later that night, I ran out of the house again, down the street on the right hand side past the apartment building where the 20 people were arrested and there was a woman standing there, she was on the phone with [Jon Mackinder](#). I asked him, who is this woman, who is she? He wouldn't answer my question, no comm, which pissed me off even more. I found out later, she was a nurse from Megan Shield's office. Why he refused to communicate this to me, is beyond me.

The next day, I was taken to the park down the street by [Jon Mackinder](#), we sat on the bleachers and he asked me why did this happen to you? I knew as an auditor that was not the proper question to ask someone, it's a very introverting question. I knew we were being monitored cause Gavin told me. So I looked at [Jon Mackinder](#) and I said hmmm because I was molested by my father lol I lied. I remembered at that moment India, a girl I was with at Bridge Publications, who went uplines at Int to be with her soulmate, her wholetrack 2d, she was molested by a family member. I didn't know why this was happening to me and here he was asking me why? It was a weird question to ask someone in a middle of a meltdown, it's not standard tech and nobody came and corrected him or applied my religion.

Then later I was driven around by [Jon Mackinder](#) and whoever, taken to get some food, we went to McDonalds. He walked me into the bathroom, I had to go to the bathroom. And then back to my home. I was out of it, not really quite there, just going with the flow.

Then the next thing I knew, there are more people in my home. Again, I'm going in and out of a state of consciousness. I remember waking up and taking my clothes off and running out of my home down the street naked. [Jon Mackinder](#) and the other woman grabbed me and carried me back into my home. Again blanked out. then I woke up and saw this woman with blonde hair, a pony tail wearing blues, HGB blues uniform with a camera, over the shoulder, walking out of my home. I saw the back of her. again, I blanked out. Then started waking up, I stood up and Dan Stradford OT8 yelled at me and told me to sit down or I would lose my bridge. Next thing I know the police are there. Everybody like scattered and I was talking to the police. I wasn't really there but I remember I was trying to handle it, the police wanted to know why? I really didn't know, I just came out of a state of unconsciousness. I was the only one, everybody else ran away, they didn't talk to the police. The next thing I knew I was in the police car in the back going to the hospital. I went silent, mute. I wouldn't talk and refused. I was just observing. Just kinda going along for the ride. I was admitted, xrayed, fingerprinted etc etc. Then I woke up in the psych ward, wondering how the hell did I get here? This was over Labor Day weekend.

The person I reached out to was [Jon Mackinder](#). So I called him, he was living at a person's house by the name of Jean Dale, OT7, and his FSM was Pomm Hepner OT7. He wasn't there per Jean Dale but somehow she had to call OSA. I didn't really understand what was going on. There were like 20 scientologist in the waiting room for me. I wanted to leave but the doctor decided I needed a 14 day hold. I was like ok. That was on a Friday. So while I was there over the weekend, I started talking to the nurses that worked there. I told them I was a Scientologist and another Scientologist over heard me. He came out of his room. His name was Bruce and he was a Sea Org member from ASHO. I thought this was strange. He was taking psych drugs. I told him not to take those and gave him a locational in the hospital to bring him into present time, he was really scared. His mother called the police on him cause he got upset and threw the TV and broke it so he ended up there. After I gave him a locational, he was fine.

I told the psychs in there that I wanted a board of review, because of this 14 day hold and so they had a meeting and I met with all of them. They determined I was fine and said I could go home. I called OSA and told them about Bruce, she said they already knew and Dan Stradford would come to pick me up. He was late, he got into a car accident on the way there. I told him when he showed up. about Bruce, he said, we know, I'm here for you, not him. I felt really bad, like I was leaving a friend in need behind, out code of honor - Never desert a comrade in need, in danger or in trouble.

My mother came to see me but the psychs wouldn't let me see her and then later I told them I didn't want to see her.

Dan Stradford came and picked me up. and took me home. I was selling my furniture cause I was going back in the Sea Org and sold my bedroom set, it was new, only six months old to Mya Borgman, her husband Leif worked for Wiseman and Burke, they were clients of mine too. I went over there to Mya's house, I had a hard time sleeping, her kid was cool, she was an artist. Then I went online and saw [Jon Mackinder](#)'s website, my heart sank to the ground. I couldn't come out of it. I just started crying. Leif took me over to Wiseman and Burke to do some mest work, filing folders in the filing cabinets but I was just not into it. I went back home.

I couldn't sleep, so I went all over town trying to find some answers to my questions. I felt like I was in the movie Dark City lol it's a really cool movie btw. I went and tracked down my old drummer Alex and talked to her. Her and her ex boyfriend Freddie. I went to a movie with Alex and she told me,

you're getting an R factor 3 months early. I guess they wanted me to read into that so I did. An R factor is a Reality Factor. The movie we saw was Soldier with Kurt Russell, which btw, later my mother and step father wanted to go see as well. I guess I was suppose to get some message from that movie lol I'm a sci fi fan so I really didn't read too much into it, but per Scientology practices, they're not suppose to take someone to see a movie and read into the movie meaning get answers to their questions from a movie. they're suppose to talk, communicate, openly, honestly, directly.

Anyway, I was driving and Alex and Freddie were with me, Freddie was asking me questions like, what's my route, do I have a standard route I take to get home. I was like no, whatever I feel like. He was miffed at that. And later we were walking, we stopped waiting for the traffic light to turn green and as soon as it turned green, Freddie started yelling out, she's a go, she's a green. I just let him be himself, I really didn't understand what was going on until later after I read Marty's blog. This was an ops being run on me and more than one. Looking back, now, it's kinda of funny but not.

I still didn't have my questions answered, so I reached out to another scientologist, his name is [Alan Stansfield](#). I've known [Alan](#) for many years. He lived in Sherman Oaks, so not too far. I met him across the street from his house at the Sherman Oaks park, I told him what happened and he said that he would go to CC Int and find out what's going on for me because I was not allowed down there. He never got back to me, I never heard back from him after that. He blew me off. He was too busy completing his Ethics Specialist course lol yeah.

<http://www.truthaboutscientology.com/stats/by-name/a/alan-stansfield.html>

<http://i888.photobucket.com/albums/ac89/kathygold/alanstansfield-1.jpg>

I ended up taking a drive in my car, up the coast, up PCH. When I came back, I spoke to Freddie on the phone and he asked me, did you see something? I was like yeah, the ocean lol. That was the last time I spoke with Freddie.

I told [Dan Stradford](#) I wanted to be taken out in the woods and an auditor to audit me. I was on my PTS/SP course and it stated that when someone has a type 3 meltdown, the correct handling is to take them out of the environment, into like the woods, let them chill out and then audit them. I asked that standard tech be applied and they refused. They never did that. Instead they took me to this ranch where I stayed a couple of days and then went home. It was really boring and I had to get back to work.

All along that journey, all these scientologists that helped me, they all asked for one thing, money, they only cared about their exchange, their money, they didn't care about me or my life. Just money, that's all they cared about.

Which to me is strange, when I'm helping another person, I don't ask for money, it's weird. So I got back home and things didn't change for me. Everybody blew, my heart was broken, [Jon Mackinder](#) blew me off, I spoke to him on the phone at the ranch and he told me, I had 60 seconds to talk to him, who does that? I was like WTF?

My home was a mess, trashed, my business was in shambles, my landlord a non scientologist told me that [Jon Mackinder](#) told him the window was broken because my landlord didn't install it correctly. I told my landlord that was not true, I broke it and so I paid for it, I gave my landlord the money to fix it. That's when he told me to wait until December and everything would be alright and I did not understand what he meant. The ethics officer Jamie Welte also told me to wait until December and then I could come back on lines at CC Int.

Prior to talking to my landlord, I was sleeping and i just woke up and over heard my landlord talking to another man. The man said, she's ok but her scientology minister, there's something wrong with him. I didn't know who that was, it freaked me out. I was also getting weird emails and phone calls. I decided to move back home, my parents home in Granada Hills. My heart was still broken, I just cried. I didn't understand what was going on. I got a job at Mole Richardson, they do the lights for the movie industry. Then I got my own place shortly after that.

While I was living at home, the [Lisa Mcpherson](#) story hit the airwaves, tv. My mother and step father both watched it with me, I told them I knew her and my mother and step father just kept going on about how bad scientology was, how it was a science fiction religion etc etc. I was in pain, and what happened to [Lisa](#) happened to me and all they did was go on and on with so much hate. I finally couldn't take it anymore and said to her, ok, fine, let's sue them. Court. Her response was, Oh no, we can't do that, they are a big church and that was it.

Amid all of this, all of a sudden my mother, who started her own business manufacturing hair care products, got an email from QVC and got invited to sell her products on there. I asked her, how did

this happen? She said because of the website you built me. I had to laugh, it was the 1st version I built and it was really really bad lol. I was like ok.

She was very consumed with QVC and really didn't care about me or that I almost died. She went on QVC, sold out and the next thing I knew from her, the CDC got complaints about her hair conditioner. It turned out the manufacturer screwed up and tainted her hair conditioner/shampoo.

So she took them to court. She decided to sue them. Those people she sued but advised me not to sue the Church. Years later, we were in Los Angeles getting gas and we were across the street from WISE and she started freaking out when she looked at the building, I really didn't think anything of it at the time. I was like ok, I had no idea what would cause her to almost have a meltdown right there. it was weird.

Many years went by, the first 3 years I cried every day, 3-4 times a day. I would drive to work and cry, leave work and cry, take a shower and cry. All I did was cry. Sometimes I would call in sick from work and just cry all day long. I really didn't know what I did that was so horrible to lose my bridge, my eternity. I was in pain and confusion. One day I was watching Oprah and she said, sometimes it's not all you, it's other people and that hit home. that little bit of advice. it made me feel better. I finally got tired of crying and decided to take Krav Maga, I had more than one reason, but mainly so no man would ever hurt me ever again. So I went down that journey. I don't believe in going to a shrink, I'm a warrior, I operate differently than other women. For me, Krav Maga helped me heal, it was the best medicine. It was almost a spiritual journey, I was able to get in touch with my warrior side, I have past lives as a warrior, asian track, when I did the moves, they just felt right, natural, normal while at the same time it allowed me to express my rage, my hurt, my pain.

Within this time, I sent two letters, one to the church, asking they remove my name/website/link from their scientologist links and a letter to [Jon Mackinder](#) who got married to another woman less than a year later. I wished him well. I felt ostracised from this community, a community that was very important to me, my life revolved around my faith, my religion and overnight it was gone, along with all my hopes, my dreams, my future, my business etc etc. I made a postulate, I said, I'm gonna get my bridge back, some how, I don't know how or when but i'll get it back.

i continued on with my life. I left Mole Richardson, and my mother offered me a position with her company, the agreement was free room and board along with a small salary in exchange to help her company. I was making \$70k a year at Mole, for my mother is was \$1600.00 a month after taxes. The agreement also included me becoming a partner, 50/50 in her company, to take her company to the next level. I agreed. So I moved in with her and my step father in a new home in sylmar, it gave me an opportunity to work on my art. I'm also an artist, a visual artist and was looking for the right media and platform to do my art. This is gonna sound corny but when me and [Jon Mackinder](#) were together, he asked me, what's the one thing you want and I told him a song. A [song](#) entitled Kathy cause the only song entitled Kathy was Kathy's clown lol. So he wrote me a [song](#) entitled Kathy and after he blew, he changed the name of the [song to Candy](#). That hurt, it made me feel invisible, like I never existed, I never meant anything to him nor did he ever love me.

In 2008 I decided I was ready to get married and start a family, I felt I was over what happened to me in 1998 and I went on a journey to find my soulmate. I went on the HCG diet, hormones etc and I lost 60 pounds within 4 months, I was 186 pounds when I started, my naturpathic doctor told me I was one of the best results he's ever seen. I stuck to my diet, I was really focused, I was ready to commit for the rest of my life to one man.

So on my journey, because of my diet, I couldn't sleep, I started having racing thoughts and my mother decided to take me to the hospital, where I was admitted to the psych ward, the same psych ward I was at almost exactly 10 years to the date. She suggested I get admitted. My mother had other options, she could have gotten me sleeping pills or called my doctor, but she never opted for that, instead she wanted me in the psych hospital. She assumed, I would now have a history of mental illness and nobody would want to marry me.

She told the doctors and nurses, I was crazy because I wanted to find true love and make a million dollars. Which was totally taken out of context.

It's on the psych report from 2008. I also have food allergies that I wasn't aware of, I went to a doctor in 2006, had blood test, actually a whole battery of tests and found I was allergic to egg whites, soy and wheat (gluten), I also had parasites as well as bacteria and my intestines were inflamed, so much so that I had to go on a special diet to bring down the inflammation so that I could have antibiotics to handle the parasites and bacteria.

I'm also infertile now, my period stopped when I was 38, I was going to doctors, to solve this problem, she knew as I was on hormone treatments etc and I can't have children. I'm 45 years old.

I'm also celebrate, going on 9 years now. As well as being a Scientologist, I'm also Jewish and Catholic. Jewish on my mothers side and Catholic on my fathers side.

While in the psych ward of Olive View, that was an interesting journey in itself, I could write a movie or a book just on the people I met alone and experienced. There was a gang member MS13, his tat, he was a nice guy, then a man from Mexico, a Mexican national dressed in black came to visit him, he was also a nice guy, a woman named Maria, she was in Mexico and had a meltdown from her vacation. Then there was this middle eastern guy, in the area where they have group therapy, there was a nurse dressed in Obama wear, a young middle eastern man, and me. The nurse sat in front of me on the right hand side and the young middle eastern guy sat on the left, both facing each other. He looked at her and said one word and she flipped out, literally screaming. The word was CIA, that would be called a restim lol in Scientology speak or using a buzzword to get a reaction. I thought that was very interesting that this young middle eastern man who spoke no English knew an English word. And how she reacted to this one word, it was fascinating to watch her react to him and he was the patient. I saw a terrorist restimming a psych nurse. There are no cameras in psych wards and easy for them to just get picked up on a 5150, go in the psych ward, eat, rest, maybe meet a contact, and then go home. There is no security what so ever in a psych ward. That's just what I observed and after being thrown in jail, it confirmed it. I mean in jail, they have cameras everywhere, even in the cells, you also get put through the database they make you wait forever, it takes a long time, like an hour or two. Btw I'm a licensed real estate agent so after 911, Homeland Security changed things, after I passed my real estate test, I was finger printed and photographed by the Department of Justice. I'm in their database. But when you go in a psych ward, there is no database, it's almost like if you were a terrorist, you can just completely bypass the system, get in and out, unnoticed. Nobody would ever suspect a thing, after all you're crazy, who's gonna believe you.

After I got out of the psych ward, my mother pushed me down a flight of stairs and then called the police, telling them I was after her. That never happened. Then she told me to get the hell out of her house, her million dollar home in Sherwood Forest, I lived in the back guest house, still on an exchange, free room and board plus salary for her company. I also got carbon monoxide poisoning from the vents, I had to solve that problem too.

The market crashed, I had some savings, through the years and I decided to leave. There is guns in the house and I was afraid, they would take their frustrations and anger out on me. My step father, when I moved back home in 1998, he physically choked me. My mother's reaction was, you are trying to ruin my marriage. Her husband got pissed off because I didn't want to go for a walk with him and the dogs. I was in pain, extremely sad because of what happened to me. He didn't care about my feelings or that I almost died, it was all about him. He just stood there and started yelling at me, how I'm a spoiled brat and then the next thing I knew he lunged at me and started choking me. My mother and step father are not Scientologists.

So I left. Before I left, [Julie Synder](#) referred [Daphna Hernandez](#) and she helped me get back online. Both psych reports were forwarded uplines and I got approved to come back to the Church. I bought my basic books and started reading. I had my religion back, my faith, I was happy again. [Daphna](#) went to CC Int and got with the ethics officer on my behalf per [Daphna](#) there was one KR in my ethics folder, it was written by [Jon Mackinder](#) and it said I went crazy because I owed my mother \$50,000. When I was going back into the Sea Org in 1998, I told my mom, she started crying which was weird but to stop her from crying I told her I wanted to give her some money, I felt over the years her and my step father had helped me and I wanted to give back to them in abundance.

I started doing extension courses and was trying to figure out how to pay for my bridge as I had a real estate license but the market was crashed and I was spinning around on what to do. I decided to go make an organization at AO, The Advanced Organization of Los Angeles, I'm also a last life clear and AO was my next step on the bridge, but they wouldn't let me do that, instead they threw me out, they carried me out physically and threw me on the ground. I was exterior to my body because I was happy that I had my religion back. I went back the next day, The price of freedom, constant alertness and the willingness to fight back, this time, I got thrown in jail, a citizen's arrest. Part of my organization was going to be what I saw in the psych hospital and how I experienced this.

I was like WTF? I'm approved back but I can't go in my church to talk, to speak to a minister. I'm arrested for being a parishoner?

I went to a civil rights attorney, and I told him what happened. He said, I didn't have a case for what happened to me in 1998 because of the statute of limitations had run out but I had a case now for them throwing me in jail. The statute of limitations would run out in 3 years. He said he would take my case but he could not afford to go pro bono, he told me to go to the ACLU for funding, he knew who he was going up against and he was no fool.

So I contacted the ACLU, and they sent me a letter back explaining why they could not fund my case. They had no money and only seven attorneys for class action lawsuits. I sent them another letter, they never responded, they blew me off.

You would think the ACLU would want this case, cause here in California they went around suing the city for religious symbols on city buildings. But I guess I was wrong, oh well.

During this time, [Marty Rathbun](#) and Mike Rinder came out online. I started reading Marty's blog and got some whys to some of my questions.

I read [David Miscavige's PR](#) in 1998, The Man Behind Scientology, both [Marty Rathbun](#) and Mike Rinder were in the PR. I realized, they both knew. I decided to give them the benefit of the doubt and I approached both [Marty Rathbun](#) and Mike Rinder on Marty's blog. I sent [Marty Rathbun](#) a private email too.

On [Marty Rathbun's blog](#) I felt attacked, no granting of beingness and then Marty cut my comm when he blocked me from posting to his blog.

I also saw the tv report on the BBC with Mike Rinder and he said he had [purview](#), that meant he knew as head of OSA. My knowingness, my instincts, my guts told me, all three were involved in my induced meltdown of 1998 as being the head leaders of Scientology. My church. So I continued to read and gather information to piece together what happened to me. Through the course of my investigation, I found:

OSA ran ops on me after I got out of the hospital in 1998 (more than one), only bullies do that, I was in a weakened state.

My mother and step father were paid off, \$50k each so I wouldn't go to court, both criminal and civil in the [Lisa Mcpherson](#) trials and of course my own here in Los Angeles. And my mother got to go on QVC, where would that come from, any scientology celebrity I'm sure and both signed confidentiality agreements, basically zipping it for payoffs.

The [indictment](#) for the [Lisa's murder in Florida](#) was coming down the pike and scheduled for Nov 1998. My incident happened in Aug/Sept, I was too close to this and that's why they wanted me to wait until December of 1998.

Which of course as you can see from my minister's letter, I was no longer allowed back to CC Int but had to go to another lower class org. They lied to me, Jamie Welte et al, they said I could come back, I just had to wait. Then they blew me off. They left me spinning in lies, confusion and pain and all I did was ask my church for help.

I saw [Maureen Bolstad's press conference](#) she did with Marc Headley and I read about her story online. I realized she was the woman that video taped me in my induced meltdown.

I also watched Aaron Saxton's interview online and he talked about the HGB building and realized, Maureen came from there, the HGB building was where you wear blues, the uniform and that's where she took the video tape of me naked and routed it uplines to Int Management.

I also felt discriminated against. This type 3 meltdown thing has happened to others including celebrities. [John Travolta](#), when I was in the Sea Org in 1991, I walked into CC Int and I saw him, he saw me and immediately he started going into a meltdown, [Tom Cruise](#) was having one up at Flag, I had to go and purchase the vitamins for him so he could sleep, I was working at a company called Health Med at the time and [Gina St. John](#), like a week before my induced meltdown occurred, I was talking to her in the restaurant in CC Int, and she started having a meltdown, she was getting auditing at the time. I was not getting auditing, I was on course.

They helped all these celebrities at CC Int, but me, instead of help, they took me back to my own home and allowed it to escalate to the point where I almost died. Had it not been for the [LAPD](#) doing their job, I too would have died like [Lisa Mcpherson](#).

And I figured out, that a type 3 meltdown is crossing the wall of fire in my religion, basically it's where you died in past lives. So they, meaning Int management, including [David Miscavige](#), [Marty Rathbun](#), Mike Rinder and [Michelle Shelly Miscavige](#), watched me naked, die over and over and over again on video tape.

The bridge is a gradient so that nobody dies. On my last journey, I crossed the wall of fire, what started in 1998, I completed in 2011, by accident. Never the less, I figured it all out just like LRH and I now have cause over my exteiorization. So I no longer need the church of scientology for anything. I did this using only my ethics book.

So as the victim of a real crime that occurred in Aug/Sept of 1998, I had to figure it all out. I had to take a journey, journeys within journeys because nobody would tell me the truth. I never gave permission to be holed up in my home where I couldn't leave, let alone be video taped naked. My human and civil rights were violated.

The people directly involved in this crime were the following:

[David Miscavige](#), [Michelle Shelly Miscavige](#) by marriage, it's community state property in California, [Marty Rathbun](#) and [Mike Rinder](#) - their motive, [David Miscavige](#) their leader was going to go to Jail for [Lisa's](#) murder. The [indictment for her murder was coming in on Nov, 1998](#). They didn't want to show a history, if it's one then it's easier to appear as an accident.

[Amy Scobee](#) - She ran all the Celebrity Centers, she knew and got the celebrities ready for the PR, [John Travolta](#) and [Kirstie Alley](#) are both in the PR.

[Jon Mackinder](#) - he induced it - his motive, to stop me from going back in the Sea Org and use the church to control me so that I would continue making money so I would pay for his child support payments and support him financially

[Maureen Bolstad](#) - She video taped it - motive, doing her job and being [David Miscavige's](#) pet [Dan Stradford OT 8](#) my assigned volunteer minister he told me in 2008, 10 years later, that I said in my meltdown to him, that I was gonna tell people he raped me, I was unconscience and don't remember that, but I did spot him, he was a pedafile down the wholetrack lol. meaning past lives pre earth

[Julie Synder's husband's assistant](#), I forget her name - she just did was she was told to do There were other people coming in and out of my home but I don't know who they were as I was going in and out of unconsciousness

Indirectly

[My mother and stepfather, both non scientologists](#). They each took \$50k payoffs for a total of \$100k, plus QVC and signed confidentiality agreements. I have no proof and whose gonna admit to this? Not the Church nor either of them. I suspect they are in her safety deposit boxes and the church's copy is up at Int management along with my video tape. There is no public record.

The Three books I used to crack my case are:

[Blown for Good: Behind the Iron Curtain of Scientology](#)
[SCIENTOLOGY - ABUSE AT THE TOP](#)
[Tom Cruise: An Unauthorized Biography](#)

So by OSA's actions 4 cases of Justice were perverted, twisted and altered. [Lisa Mcpherson's Criminal](#) and Civil Trials and my Criminal and Civil Trials. OSA got their product.

[Scientology responds with surprising calm](#)

Of course they're calm, they already had all the data lol it's called running ops meaning more than one lol. It's all legal, private eyes etc etc. Everybody does it, all corporations do. Nothing new here lol. You just don't know about it. lol Remember all those worker's comp cases lol yeah, they ran ops on the people that filed the claims, fraud. The Church does the same thing, with people that get killed, you just won't know. Typical mob move lol. It's all legal lol. They go to the non scientology families like mine and pay them off lol. Get it.

So kiddies, you go change laws and go to court to make change. The rest of us, we're going to [target 3](#), to play the real game. While you are busy in middle class heaven making change lol we left you behind lol. Oh well huh. lol Not my fuckin problem, I'm a selfish bitch, see [Simon Bolivar Policy](#).

Ops were run on [Joan Wood](#) look for her journal or diary, she would have left one behind. Unless OSA got to her first posing as cops etc etc. More proof, cover up etc etc. Documentation or Ethics, Tech and Admin. Get it lol.

Now there is two psych reports, one from 1998 and one from 2008, but where is the police report from 1998, there is none. But it was the police who took me in on a 5150. And in early 2008, I got a call from a debt collector. Apparently I had a debt for when the police got called out for that 5150. I never received a bill. I never made a call for that 5150, my neighbors did.

I believe OSA ran an ops on the police too here in the San Fernando Valley.

I sent the police a letter and a check for the police report. I followed up as I never received it via the telephone. I was told over the phone that they would not give me the police report, they refused and they were really angry. I dropped the matter until 2009. The letter dated Jaunary 15, 1998, that's a typo, the correct year is 1999.

So, they not only ran ops on me but the police as well and who knows how many other people involved. The cops were a little too angry over the phone, I suspect it probably had something to do with their wives, girlfriends etc etc. The 2d, divide and conquer. OSA's standard operating procedure. Cops aren't angry over the phone, not yelling, mean, pissed off, especially when they hear it's connected to the Church of Scientology. They are usually quite mellow. Not mean and loud, screaming.

To this day, [Jon Mackinder](#) who goes by the name of Jon Magnificent is still a scientologist, in good standing with the church of Scientology, but I am not. That is aberrated, crazy and insane. They all made me 100% responsible for my induced meltdown, they all took no responsibility or accountability for it and think what they did was not wrong, it's justified, to them it was the greatest good for the number of dynamics, theirs, not mine. And not one of these people including, the leader of the church of Scientology, [David Miscavige](#) stepped up to the plate to do amends. They don't practice what they preach and that is a crime in my book.

It took me 13 years to get over this emotionally, to move on. I'm telling my story so in the event this happens or has happened to another woman, man or child of any race, within the Church of Scientology, it can give them hope to know their eternity, their spiritual freedom is not gone and they too can apply their ethics book and win.

I already went to [Tobin and Childs](#), the reporters who specialize in reporting on Scientology, their niche.

The Church of Scientology and it's management crew is morally bankrupt. They sold their soul for money, power, fame and glamour. Hollywood.

Updated October 2, 2012

Could these two non scientologists be the ones that ran ops on the cop's wives/girlfriends? Things that make you go hmmm? <http://www.tampabay.com/news/scientology/article1254129.ece> One thing I do know, no real scientologist would ever go fuck a cop's wife/girlfriend for an ops, not their style. Typical wanna be cops, who are really criminals. They had an awful lot of time on their hands, got paid all that money and yeah, down time. Notice how they are victims of their jobs, kept them away from their homes, their families, sympathy, yeah.

Cognition, realization or lightbulb, by the time I would have gotten up to int management to do their mission to get [OT9 and OT10](#) released, [David Miscavige](#) would have just changed the game. Had me do something else. He had no intention of making his target, to get it released by the year 2000. This special mission was just a recruiting tool for him, pushing those help buttons of wanting to help mankind and save the planet etc etc. He probably figured, who is she ever gonna tell LMAO

His excuse to everybody else, an acceptable truth, the [Lisa Mcpherson](#) cycle, prevented that from happening as well as all the other things he was working on. See LRH gave them instructions, in order to release [OT9 and OT10](#), they had to expand and safepoint their communities.

This was always a church, I believe since the 1960's, dig around and you will find their status. LRH would expand his church and somebody would yank it, he would get the status back, expand again and then somebody else would yank it, same shit different day.

So, he knew this game, all too well, you expand, people attack you, why, cause they are stupid, petty and jealous. Or in other words, want what you have.

So he gave them a target, they asked for one so he gave them one. The year 2000, why, they had no idea. The internet, computers. InComm, LRH put that there, it stands for In Communication, their internal computer systems. LRH's wholetrack, computers, security, breaches, hacking etc etc, the white hat kind. We were both on payroll for the banks and our gov, federation etc etc, different time periods but nevertheless, our wholetrack, pre earth, together or as they would say, sweet sweet love LMAO. <http://youtu.be/O4RdSHnZgEE>

I had to bring a friend of mine to this location; and had positive experiences both times.
Very friendly staff, patient and willing to be helpful.

The reception area is not posh or fancy, but it's spacious, clean and chairs are new with some beautiful original art displayed on the walls.

Parking is a breeze; and talking about breeze, the air conditioning was blasting nice cold breezes while it was 105 outside! This is the valley!

Of all the four different medical offices in various cities I have been to, this one has the best staff!
It makes such a difference to the patients who are already stressed coming here.

kudos! Keep it up!
